

DOORLITE COLLECTION

www.mastertechdoors.com

YOUR HOME

Homes come in every shape, size and design. So, whether your home is old or new, big or small, Contemporary or Colonial, finding a glass style that compliments what you have is important.

Our designers understand this. They have created designs that are simple to intricate, clear to obscure. This is where solid metals, textured and beveled glass come together to create true works of art. Everyone is different and so are our designs.

Let Trimlite help you create a front entrance that will be the focal point of your home and a true reflection of your taste and style. So now, it's your time to choose.

PRIVACY GUIDE

Trimlite offers an extensive line of designs to choose from and the degree of openness or obscurity varies considerably. To help your decision making process we have photographed each design under controlled circumstances so that you can see the difference. With each picture, we have included a number which represents the 'Privacy Level' for that particular design. This number will be referenced on the individual product page as well. Note: this 'guide' is subjective. It should only be used when comparing Trimlite designs.

KNOW THE BEAUTY OF INNOVATION

SPECIFICATIONS

CONSTRUCTION

- Handcrafted, our decorative glass panels stay true to their stained glass roots.
- Our selection of premium art glass and bevels, which makes our designs come to life, are hand cut and fitted. Careful consideration is given to choosing textures, complementing elements are crucial to a design's given appeal.
- Using solid metals, where all of the joints are soldered by hand, ensures the panels will be strong enough to withstand daily use.
- Once assembled, the panel undergoes a thorough cleaning and inspection process. This attention to detail is our assurance of quality to you.

GLASS VARIATION

Decorative pattern glass is handmade. Through this process, slight imperfections or discolourations are inherent characteristics of all handcrafted glass. Bubbles or seeds, slight surface flaws and subtle variations in textures vary depending on the pattern. Some glass patterns, like Swirl and Drawn, are more likely to have these inclusions. They are not considered defects.

Swirl Glass Detail

Drawn Glass Detail

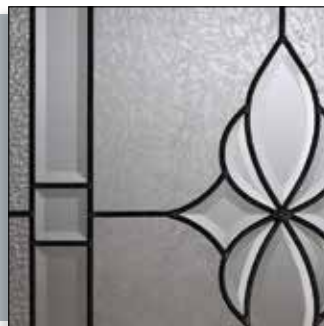

CAMING OPTIONS

Hand soldered metals in 3 finishes. See individual product pages for availability.

Brass Caming

Subtle gloss finish that defines luxury and style.

Patina Caming

Black satin finish offers a rustic or antique look to your home.

Zinc Caming

Brushed chrome appearance brings a contemporary look to your entrance.

INSULATING SYSTEM

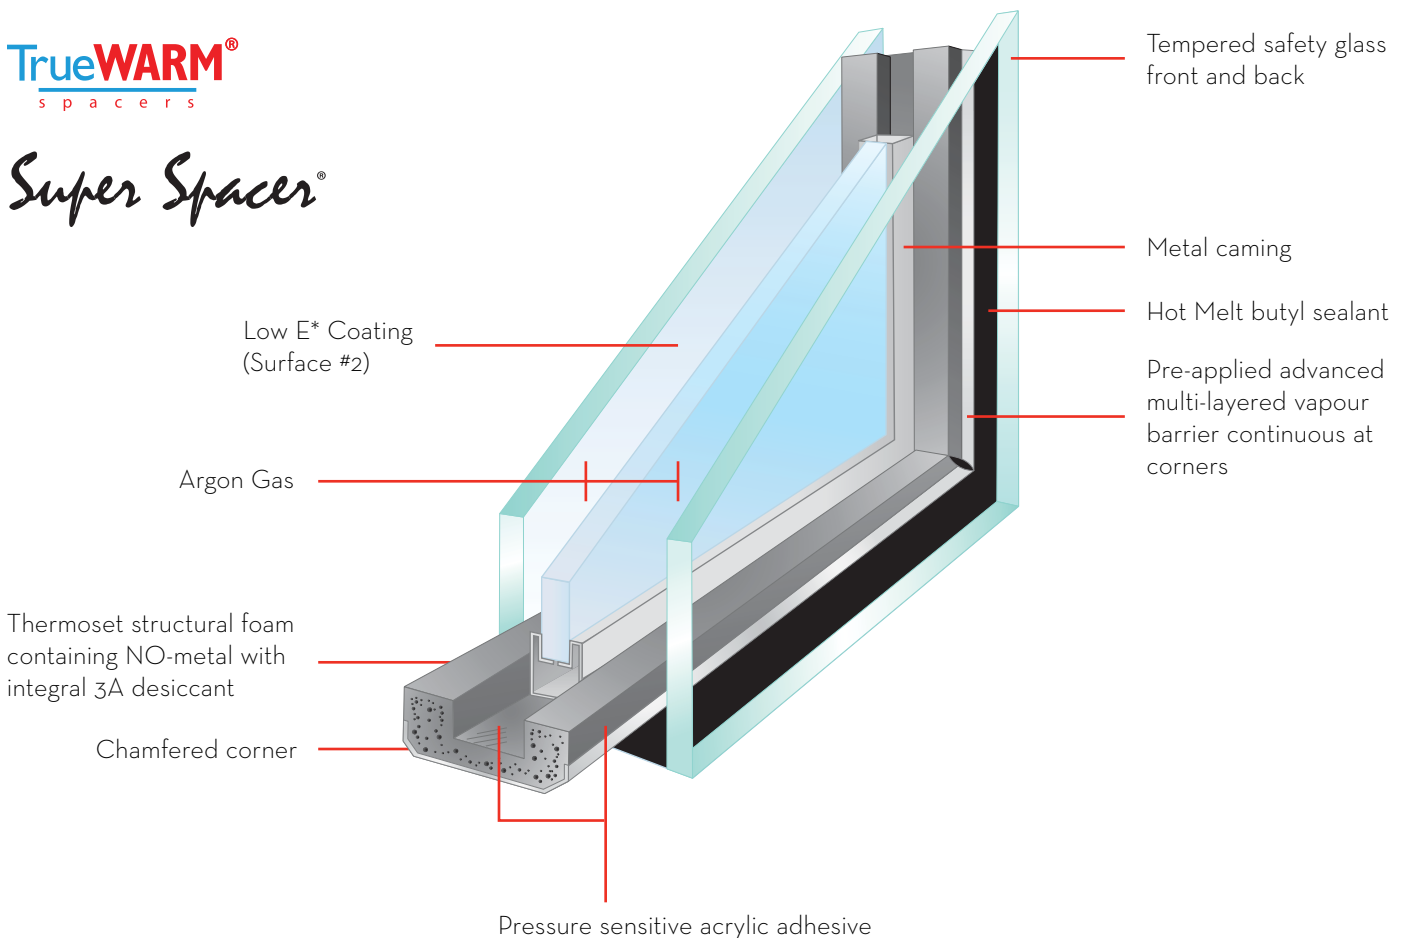

All Trimlite Decorative Doorlites are made with Super Spacer® Cushion Edge™, a flexible, U-shaped, silicone foam tape product used to wrap around and cushion our center decorative panel. Featuring a vapor barrier backing, the product used in combination with Hot Melt butyl, provides a superior Warm-Edge seal.

PERFORMANCE FEATURES

- Warm-Edge Benefits: Superior silicone foam insulation, low thermal conductivity
- Silicone Foam Features: Excellent UV resistance and extreme temperature performance
- Dual-Seal Performance: Chamfered corners for increased sealant depth
- Tempered Safety Glass for your piece of mind
- Low E* with Argon Gas for your comfort

TrueWARM®
s p a c e r s

Super Spacer®

All Trimlite Doorlites are certified by the National Accreditation and Management Institute, Inc. (NAMI).

All Trimlite products are energy tested. Consult your dealer for specific energy ratings.

Warranties: Our products are covered by separate limited warranties. Please contact your dealer for more information.

SuperSpacer®, TrueWarm® and Cushion Edge™ are all registered trademarks of QUANNEX BUILDING PRODUCTS.

*Our doorlites are available with Low E and Argon. However, some exceptions may apply. Contact your dealer for more details.

AT THE INTERSECTION OF FORM AND FUNCTION

Thoughtful, clean lines, simple design, and peace of mind. These guiding principles inspired us to create the Solution Series. The Solution Series is perfect when you want the glass and the door to be the star, while the frame blends seamlessly into the background.

The Solution Series design eliminates any screw holes, so you don't have to worry about gaps or screw plugs. Our patented* technology uses a compression seal and interlocking joints to adhere to your door, creating a powerful bond. The frame is built to resist warping and melting in high heat areas so it can be used with any color finish. Our textured frame comes in two colors to match any stain or paint.

Glass Size: 2208 Rooftop
Door: DRS00

PRODUCT FEATURES

- Available in White or Tan
- Shaker Style Low Profile
- No Screws, Plugs, or Holes
- Textured Vertical Grain Pattern
- Patented Frame System
- Connects Modern, Craftsman, or Mid-Century Architectural Styles

BALANCING PRIVACY AND DESIGN

Retro is defined as remaking the past. Our Retro Series is an extension of our 1-Lite French Doors that have been remade specifically for our Exterior Doors. We selected our glass designs that balance privacy and design, as we believe your doorlite should always be elegant and safe.

Our glass designs pair perfectly with our standard frame options. And, like decorative designs, these come standard with Low-E and Argon for additional energy efficiency. Although these products may seem new, they are remade for you.

Glass: 2264 Screen Dot
Door: Fiberglass DRSOO

764 / 2064 or 2264 / 764 White Internal Grid

Need more performance in your doorlite... Consider Cardinal LoE²-272 Glass

Available in the clear and white internal grid options, the insulating value of Cardinal's **LoE²-272** patented coating is nearly double that of an ordinary insulated glass unit. In winter, **LoE²-272** reflects heat back into the room. In summer, it rejects the sun's heat and damaging UV rays. The coating is virtually invisible to the eye yet blocks 84% of the sun's harmful ultraviolet rays. In fact, **LoE²-272** is the clearest, highest performing glass you can buy.

Some items are special order. For a complete list of sizes, glass and grid options available in your area, contact your dealer for more information.

FEATURES

BENEFITS

1) Adjustable Self Draining Door Sweep

- directs driving rain water to sill
- multiple fins with interior compression bulb seal

- eliminates water leaks to interior floor
- allows for movement without affecting draft seal

2) Warm Edge Clear Anodized Sill

- extruded PVC thermal break sill adapter
- heavy duty extruded aluminum sloping exterior sill plate with sill extensions
- solid wood sub sill
- NAFS Approved

- directs rainwater to exterior and eliminates interior condensation
- directs rainwater away from the door with a slip resistant surface
- provides a solid base to support weight

3) Insulated Steel Door Panel

- 24 gauge galvanized steel panels separated with perimeter stiles and 12" lock block
- insulated with CFC free polyurethane foam insulation

- rust resistant steel with added security against break ins built into hardware area
- insulates against extreme cold and hot weather conditions

4) Waterproof Closed Cell Foam Gasket

- applied between wood jamb and sill

- provides that extra seal to prevent water seepage and wood rot

5) Heavy Duty Wood Jambs

- oversized 1 1/2" jambs compared to industry standard of 1 1/4" jambs
- 3" screws used instead of staples

- provides added strength against warping and a heavier frame to anchor hinges, supporting door panels and heavy glass

Steel Jamb Cladding

- the same 24 gauge steel used for the door skin is applied to the wood jambs
- steel is stronger and more durable than vinyl and aluminum

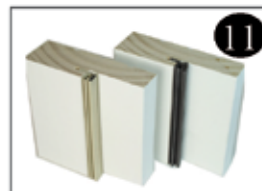

12" Security Plate

- 18 gauge steel plate applied to door jamb at handle and lock location
- provides maximum security against break-ins

Weather Stripping

- foam compression weather strip on hinge jamb
- magnetic weatherstrip on header and latch jambs
- magnet sticks to steel door and door panel compresses against foam to prevent drafts

Brown & Beige Weather Stripping

- choice of weather strip colour to match door colour and/or cladding colour
- does not create eye sore of white on a colour door
- eliminates illuminating light in bottom caused by reflection of sun light

Ball Bearing Hinges

- ball bearing incorporated in hinge
- available in 5 different finishes
- provides effortless swing, maximum support and durability
- matches glass coming and hardware

Heavy Duty Ball Bearing Hinges

- thicker gauge ball bearing sold brass extruded hinge
- available in all 5 standard finishes
- increased weight capacity for those very heavy glass options

Black Sill Crown & Sweep Cover

- black aluminum sweep cover & black sill crown go perfectly with painted doors
- eliminates painting of vinyl sweep
- exterior aluminum cap withstands harsh climate

Black Anodized Sill

- all black sill and crown
- adds an extra bit of elegance to your door system
